NOTE: Schools using **CLEVER** should follow **Clever Rostering** and **Sync** instructions (Section C).

BEFORE THE FORM A (Pre-Test) ASSESSMENTS

1. Your **District Administrator** will set-up school administrator usernames and passwords for school administrator/principal access to the system.
2. Your District Administrator will generate a list of teacher usernames and passwords for logging into the online Pro-Core Assessment System to forward to principals.
3. **School Administrators** and **teachers** should log into the system before the Form A diagnostic pre-test is administered to confirm teacher class and student enrollments are accurate, and to become familiar with the various system features and commands.*
 - School administrators, teachers, and students may login to the Pro-Core Assessments (P-C #) program through the Pro-Core Web Site at <https://pro-core.us>
 - They may click on the “#.0 Login New Tech Enhanced” tab, and **Bookmark** the P-C Login page on their browser for direct access.

➤ *See Section L and P of this manual for Teacher and Student Log in and Procedures.*

***NOTE:** Your Pro-Core **District Administrator** will log-in at a *special* “district-level” url provided by Ben Hemingway (*see* Section F). The district-level administrator must enroll students, teachers, classes, at least one principal or school-level administrator for each district school, and send the school principal(s) their log-in information

Contact your Pro-Core District Administrator for your School Administrator log-in Username and Password.

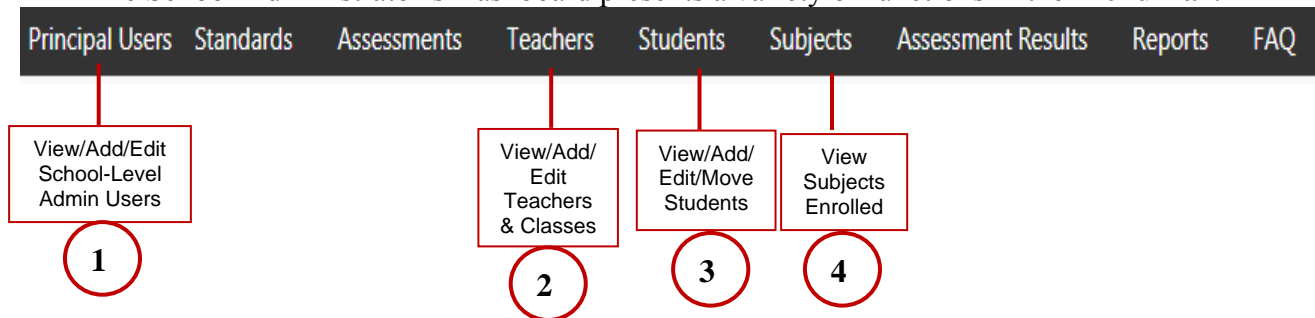

Principal/School Administrator Log-In

On the Pro-Core **Login Window**, select your school, then key-in your Pro-Core User ID and password. * Your password will appear as *dots* ●●● for security.

The screenshot shows the 'Login to ProCore Account' window. It features a dropdown menu for school selection, two input fields for 'Username' and 'Password', a 'Remember me' checkbox, and a 'Login' button. Three red callout boxes with white text and arrows point to the school dropdown, the Username field, and the Password field. The callouts are: '1. Select your school', '2. Key-in your Username', and '3. Key-in your password'.

The Principal/School Administrator Dashboard

The School Administrator's Dashboard presents a variety of functions in the **Menu Bar**:

School-Level administrator users have full access to teacher, class and student information including enrollments, reports, and functions shown in the Menu Bar. **At least one School-Level Administrator/Principal should be enrolled into each school by your District-Level Administrator or SIS Tech person.**

NOTE: The School-Level Administrator/Principal may change her/his username and password at any time, and enroll additional school-level administrators.

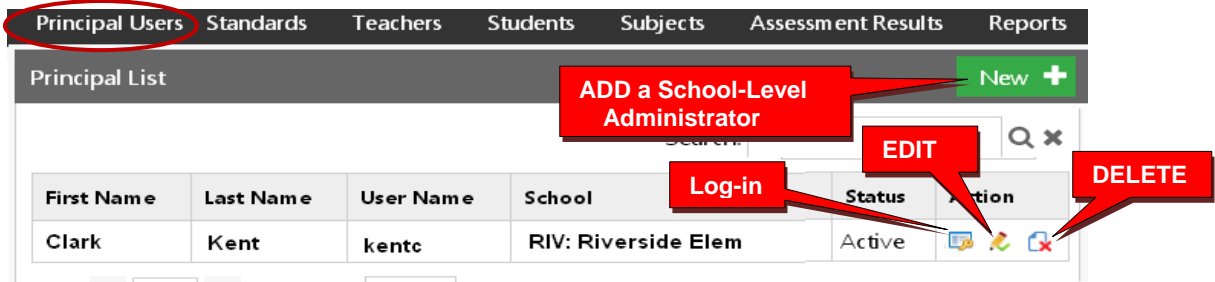

Teacher-level and student-level users and teacher classes are *automatically* enrolled into the Pro-Core system at the beginning of the school year.

District or School-Level administrators may view or edit teacher or student information.

The District *OR* School-Level administrator is responsible for adding new teachers, classes, and students, or moving enrolled teachers, classes, and students in the system after the initial enrollment.

1. View/Add/Edit Principal/School Administrator Level Users

In the District Admin Control Panel Menu Bar, select **Principal Users**.

To add a Principal (School Level Administrator) user, select the **New+** button.

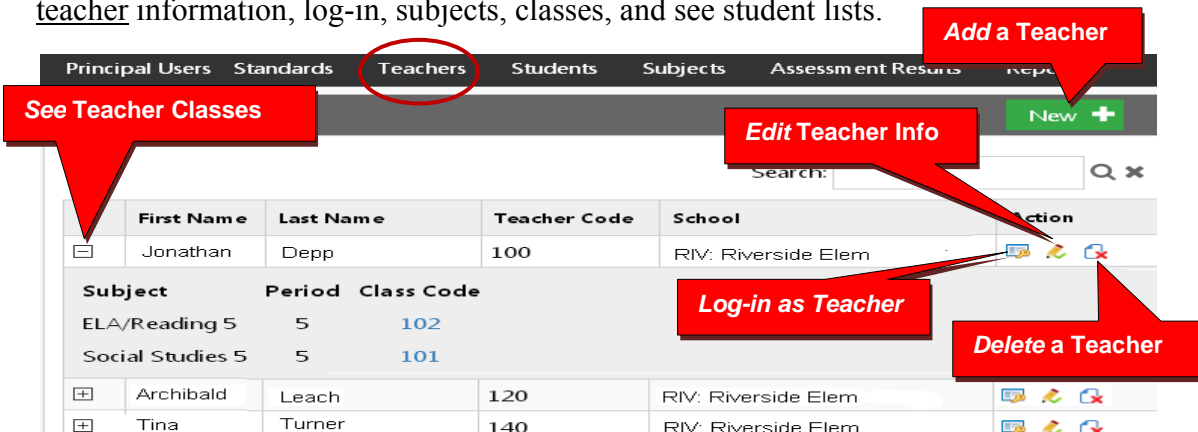

The 'Add Principal' form includes fields for School (RIV: Riverside Elem), First Name, Last Name, User name, and Password. At the bottom, there is an 'Active' checkbox and a 'Save' button. A red callout points to the 'Active' checkbox and 'Save' button with the text 'Activate and Save changes'.

Key-in the “Add Principal” information. The recommended *default* log-in is *LastnameFirstInitial* with password 789. Select “**Active**,” then “**Save**” when done.

School-level administrators have access to the same functions as the Principal. They may log-in and change username and passwords at any time. **We strongly recommend that administrators change their *default* username and password.**

2. View/Add/Edit Teachers and Class Students

Selecting “**Teachers**” in the Menu bar allows you to view, find, edit, add or remove teacher information, log-in, subjects, classes, and see student lists.

Add a New Teacher

Teachers, classes, and students will already have been enrolled in each district school based on the Enrollment Data File you uploaded previously. District or school administrators/principals are responsible for adding new teachers.

The screenshot shows the 'Add Teacher' form with the following fields: District (Riverside), School (RIV: Riverside Elementary), First Name, Last Name, Teacher Username, and Password. A blue 'Save' button is at the bottom. Two red callout boxes with arrows point to the 'Save' button: one says 'SAVE changes' and the other says 'See CAUTION below'.

CAUTION: Teacher and student *default* usernames and password are generated *automatically* when your Pro-Core Enrollment File spreadsheet is uploaded. Administrator, teacher, and student passwords *should* be changed for added security.

When **adding** a new teacher, you *may* want follow the Pro-Core format for Usernames and Passwords to avoid confusion unless a teacher has given you a preferred Username and Password. The *default* Pro-Core teacher **username** is the *TeacherLastnameFirstname*; the *default* teacher **password** is 987. The teacher must change the Password upon first logging-in. The teacher has the option to change their own Username as well.

WARNING: If you **delete** a teacher, you will delete the teacher's classes as well. So, if a *new* teacher is replacing an *old* teacher, it is preferable simply to change the teacher's name and log-in as shown *below*.
