Principal/School Administrator: Enabling Form Assessments and Testing Times

NOTE: This section applies to Clever, ClassLink, and *regular* Pro-Core users.

The District or School Administrator or Tech Person is responsible for student, teacher, and class enrollments. This section deals with setting student and system access times and *enabling* assessments and testing times <u>after</u> the school enrollment has successfully been accomplished.

SCHOOL ADMINISTRATOR LOG-IN (Available to all school administrators)

Contact your Pro-Core District *Managing* Administrator for your School Administrator log-in Username and Password.

In the Pro-Core Login Window, select your school, then key-in your Pro-Core User ID and password. Your password will appear as $dots \bullet \bullet \bullet$ for security.

The School Administrator's Dashboard

The School Administrator's Dashboard presents a variety of functions in the Menu Bar:

School Level administrator Users have full access to teacher, class and student information including enrollments, reports, and functions shown in the Menu Bar. At least <u>one School-Level Administrator/Principal should be enrolled into each school by your District-Level Administrator or SIS Tech person.</u> Teacher and student level users are *automatically* set-up during enrollment. Clever or ClassLink users will normally use Single-Sign On (SSO)

NOTE: The School-Level Administrators/Principals may change their username and password at any time, and enroll additional school-level administrators. Non-Clever/ClassLink users may also view or edit teacher or student information.

1. View Learning Standards

Selecting "Standards" will display the Learning Standards and Domains assessed by Pro-Core. The Pro-Core Standard and State codes and descriptions are shown for each subject.

2. Enable/Disable Form Assessments and Test Length

Your District Manager or SIS Tech person should enroll teachers and students into the Pro-Core system at least a week prior to your district or school(s) Form A assessment date. Your Form A assessments will be *activated* by Ben Hemingway and will appear in your **Assessments** window as <u>disabled</u> (unchecked). Your District Manager or SIS Tech person should have *enabled* the Form assessment for you school.

If not, selecting **"Assessments"** in the Menu bar allows you to enable (reveal) your Form A, B, or C assessments to teachers and students when they are ready to be used. **Checking** the boxes will **enable** them.

 - All Form A/B/C assessments are **90 minutes** long with 1 "Save" allowed.
 - <u>Administrators</u> have the option to extend the time limit on all Form tests.
 - Administrators also have the option to add more Saves for multiple-day testing on all enabled tests.
 - Assessments may be scheduled over multiple days in the Setting Test Times layout.
 - <u>Teachers</u> have the option to extend the time limit on student class tests with added Saves.

For **Form C** assessments, you have the option to **hide all Form C** <u>reports</u> by selecting "**No**" until all students have completed the Form C assessments. The *default* setting is "Yes" (*see above*) which will allow all Form C results to show in all reports whether all students have completed the assessments or not.

After enabling and Saving your Form assessments, select "**Setting Testing Times**" in the Assessments Menu, or you will automatically be taken to the Setting Testing Times layout to set the days and times students will be taking the Form Assessments you enabled.

3. Setting System Access and Test Times

Pro-Core <u>System Access</u> and <u>Assessment Times</u> *should have been* previously set by the District Manager or tech person. Those *controls* can be modified by a School Administrator or Principal who have been added to the system by the District Manager to more closely reflect each school's scheduling.

There are two security features that allow control of (A) Pro-Core System <u>Student Access</u> Times and (B) Pro-Core Form <u>Assessment</u> Times.

A. Student System Access Times

The *default* student system access times are <u>weekdays</u> from 7:00 a.m. to 5:00 p.m., but these may have been modified by your District Administrator to better fit your school's actual opening and closing times.

School administrators and teachers have access to the Pro-Core system at any time. But for enhanced security, <u>students</u> should only be allowed to have system access—or not—to the Pro-Core *system* during controlled times at school or from home.

NOTE: You may need to confirm or edit your students' <u>system access</u> settings so that they coincide with your Pro-Core Form A/B/C <u>testing</u> plans and other teacher class activities. *See* **Set Test Times** *below* for more information

Students attempting to log-into the Pro-Core system outside of the system access times set will see the **message**: "Pro-Core system access is closed at this time."

B. Setting Form Assessment Times

After Form tests have been Enabled and Saved, select "**Setting Testing Times**" in the School Assessments Menu to go to the Set Testing Times layout to set the days and times students will be taking the enabled Form assessments. If there are dates and times visible in the layout, they may have been previously set by your District Administrator. You may modify them if you wish; otherwise, you may set your own school's testing times.

Pro-Core Form A/B/C assessments and make-up testing should be scheduled within a **two-week testing** *window*. Select each day and times you want students to have access to the enabled assessments.

Allow at least 2 hours for 1-day testing. For multiple-day testing, Ending Times selected *must* always be at least **30 minutes** or greater than the Starting time selected.

- If no date or times are entered, all enabled assessments will be available anytime during the Student System Access Times.
- If test days or times selected are outside the Student System Access Times, a warning message will appear.
- You may view and adjust the times set for student access by clicking the "View Student System Access Times" *button*.
- WARNING: Setting strict assessment times will make the Form A/B/C assessments more secure. Students attempting to access the assessments outside of the set times will see the **message**: "Pro-Core Form A/B/C assessments are not available at this time."

<u>Teachers</u> administering the Form A/B/C assessments may further modify local or remote student Form A/B/C assessment starting and ending times to override those set by the district or school. Students attempting to access the assessments outside of the set times will see the **message**: "Pro-Core Form A/B/C assessments are not available at this time."

<u>Teachers</u> are able to further enhance security by selecting specific subjects and student testing times within the school's system access and testing schedule for each of the teacher's classes. *See teacher information in Section L.*

NEW! 4. Set School <u>Accommodations</u>

Pro-Core allow the <u>district manager</u> to set accommodations across the entire district for students with IEPs, 504 plans, and/or English Language students (EL). The <u>school</u> <u>administrator</u>/principal may set accommodations for their school IF they do *not* contradict the settings made by the district manager.

NOTE: This feature applies the selected accommodation(s) only if the EL students or students with IEPs or 504 plans have been identified during enrollment rostering; otherwise, students must be identified individually by the administrator or teacher.

<u>CAUTION</u>: *Non-default* selections made by the district administrator are synced *and locked* in the settings available to the school administrator/principal and teachers. If the school administrator or teacher attempts to change the district setting, a message will appear requesting they contact you.

Selecting "**YES**" for **Group Oral Administration for EL Students** allows a Students list to appear, so that you may select whether the assessment questions should be shuffled or not for all or some students.

Teacher Personalized Assessments (TPAs)

Teachers may create customized Short Cycle Web Assessments (SCWAs) for their classes. They may also select questions from the Pro-Core Form A and SCWA database. These questions are directly aligned to the state's most resent Learning Standards in Reading/ELA, Mathematics, Science, and Social Studies. TPAs may also be shared with other teachers in the school. (*see* Section N for more information)

View, Print, Run, Edit, Share, Delete TPAs

In the administrator Menu, click on **Assessments**, and select **Available Assessments**, and then **Teacher Personalized Assessments** from the drop down boxes. This will allow you to view, print, run, edit, share, or delete Teacher Personalized Assessments by subject and teacher.

It is a good practice to check this report *prior* to the Form A assessments to make sure all your pre-test subjects are listed here.

6. Principal/School Administrator FAQs (Frequently Asked Questions)

Selecting "FAQ" will display some commonly asked questions and answers which will help you understand and use the Pro-Core system more effectively. New FAQs appear from time-to-time, so be sure to check this selection often. You may also submit your own questions to <u>hemingway@pro-core.us</u>
