

## The Pro-Core Plan

The Pro-Core system can be tailored to fit the budgets of both small and large schools and districts. Select only the subjects and grade level components you want and need for every school in your district or for individual schools, subjects, grades, or classes.

The Pro-Core Plan provides high quality student data (HQSD) through online standards-based assessments including diagnostic pre-tests, interim/formative, and/or summative end-of-course assessments with student and class progress, student growth, and teacher effectiveness reports.

Students, teachers, and administrators have full access to the entire Pro-Core online learning system. You pay only for the number of students enrolled in the system and the subjects and grades you select. Select up to 4 subjects in grades 2–12.

### The Pro-Core Online System Pricing, Grades 2-12

ELA/Reading, Mathematics, Social Studies, Science  
Integrated Math I, II, III; Algebra I, II; Geometry;
